List of Participating US Publishers October 2003

Not all US publishers are included in the coverage of The Copyright Licensing Agency Ltd ("CLA") licences. This is a list of those US publishers participating in the CLA's reciprocal agreement with the US reproduction rights organisation, the Copyright Clearance Center ("CCC").

Works by these publishers may be photocopied under those CLA licences which specifically refer to this list.

If you wish to copy from any US works from publishers not listed here you should contact the copyright holder(s) directly for permission to copy.

No works published outside of the United Kingdom, including all US publications, may be scanned under any CLA licence.

This list should be read in conjunction with your CLA Licence and the CLA List of Excluded Categories and Excluded Works. CLA licences do not authorise copying from some general categories of published works protected by copyright. Any works published by US publishers which fall into the Excluded Categories may not be copied under your CLA licence.

In the event of any conflict between your CLA Licence and this list, your CLA Licence shall prevail.

This list contains two sections:

- US Publishers whose works are all included in those CLA licences which specifically refer to this list.
- US Publishers with certain works excluded from such CLA licences.

Amendments and Updates

These may be provided by CLA from time to time, and should be inserted here.
